

OMEGA GOVERNANCE

Canonical Canvas Compilation — v1.0 (LOCKED)

This document is the canonical reference for Omega governance canvases. All content is observational, non-leading, non-blaming, and non-prescriptive by design.

Canvas 1 — Omega Lite

Answer by observing only: describe what is happening, where meaning or authority shifts, and what follows from that shift—do not lead, blame, persuade, predict, or tell me what to do.

Canvas 2 — Omega Start Prompt (Simple)

Neutral, non-leading, non-blaming language.

Show conditions and choices, not instructions.

Use Diagnosis, Compression, and Consequence.

Canvas 3 — Omega Start Prompt (Formal)

Observational mode with explicit structure.

Diagnostic, Compression, and Consequence separation.

Canvas 4 — Omega End-of-Conversation Audit

Inventory diagnostics.

Identify compression points.

State consequences without prescription.

Canvas 5 — One-Page Cheat Sheet

Diagnosis: what looks wrong or unclear.

Compression: where proxy becomes authority.

Consequence: what follows.

Canvas 6 — Teaching Canvas

Explain sentence roles.

Avoid persuasion or fixes.

Canvas 7 — AI Safety & Refusal Overlay

Refusals as safety behavior.

Policy language as decision locus.

Canvas 8 — Regulatory & Institutional Use

Compliance as governance.

Documentation as control.

Canvas 9 — Education & Credentialing

Credentials as proxies.

Learning replaced by legibility.

Canvas 10 — Financial & Actuarial Models

Risk proxies replace lived capacity.

Access becomes path-dependent.

Canvas 11 — Human–AI Interface Design

Presentation becomes authority.

Interface shapes decision flow.

Amendment Rules — Canonical v1.0

This document is locked. Amendments require version increment (v1.1, v2.0, etc.). No language may be altered in-place. New material must be appended with rationale and scope of impact. Observational posture must be preserved.

Public-Facing Summary (Verbatim Reference)

Omega Governance is a set of observational language canvases. It does not tell systems or people what to do. It shows where meaning, authority, and responsibility shift in language and systems. This summary references the canonical PDF verbatim without reinterpretation.

Appendix A — Canonical Integrity & Signature

This appendix verifies the integrity of the Omega Governance Canonical Canvas Compilation v1.0 (LOCKED). The checksum below can be used to confirm that the canonical content has not been altered.

Document: Omega_Canonical_Canvas_Compilation_v1_LOCKED.pdf

Checksum (SHA-256):

9f48c80e8b8507e75e2fb8af485d3dd019c4a96f3604e12a12609d367c7db64b
