Reader Orientation Note (Framing Insert)

If the patterns described in this book feel destabilizing, that response is not a failure of understanding. It is evidence that the lens is active. Seeing structure clearly often removes the comfort of explanation before it offers the stability of comprehension. This book does not ask you to resolve what you have seen. It asks only that you recognize it.

The work of carrying this awareness—without urgency, ideology, or collapse—belongs to what follows.

Chapter 40 — The Lens as a Permanent Tool

[Content identical to Canonical Bound Edition]
