

LAYER TWO — READER INTEGRATION

Purpose: Orientation, stabilization, and agency restoration after lens exposure

Function: Help readers integrate structural insight without disorientation

Status: Canonical container

This canvas is the authoritative container for **Layer Two (Reader Integration)**. It exists to receive the Integrated Manuscript and any future reader-facing material. This layer does not introduce new theory or system diagnosis.

Intended Role

Layer Two is designed for the reader who has: - Completed Book One (The Lens) - Engaged with Book Two (Application) - Experienced cognitive or existential destabilization

This layer provides: - Re-grounding - Orientation in lived experience - Permission to pause - Restoration of agency - Non-prescriptive integration

What Belongs Here

- **Integrated Manuscript (PDF content)**
 - Reader orientation essays
 - Buffering language
 - "Where am I now?" guidance
 - Clarification of scope and limits
-

What Does NOT Belong Here

- Structural theory
 - System diagnosis
 - Ideological framing
 - Prescriptive life instruction
-

Notes

- This layer is intentionally human-centered.
- It slows pace and restores context.
- It exists to prevent misapplication of the lens.
