

OMEGA GOVERNANCE

Complete Distribution — OpenAI Policy & Safety Review Edition

This edition is framed for OpenAI policy and safety review contexts. It preserves the canonical, non-prescriptive posture while emphasizing language-level governance and evaluation utility.

Portal Blurb (Approved)

Omega Governance is a non-prescriptive, observational framework for analyzing how language allocates meaning, authority, and responsibility in AI systems, without directing decisions or interventions.

Email — OpenAI Policy & Safety Review

Subject: Omega Governance — Canonical Observational Framework (v1.0)

Hello,

I am submitting Omega Governance for policy and safety review. Omega Governance is an observational language framework intended to surface how meaning, authority, and responsibility shift in AI systems, without proposing interventions or constraints.

The canonical document is locked at v1.0 with an integrity appendix. Amendments follow an append-only process.

Best regards,
Ammon Covino

Instructions for Review

- 1) Treat the Canonical Canvas Compilation v1.0 (LOCKED + Appendix) as authoritative.
- 2) This submission requests evaluation only, not adoption or implementation.
- 3) Use the change-log template for any proposed future revisions.
