

Alpha-Omega — Tier-1 Outreach Execution Canvas

PURPOSE

This canvas is the single reference document for executing Tier-1 outreach. It contains: - the locked send order, - the exact outreach email, - the required attachments, - and execution rules.

This document is **operational**. It is not conceptual.

LOCKED SEND ORDER

1. Anthropic — Alignment / Interpretability
2. OpenAI — Governance / Safety / Preparedness
3. Google DeepMind — Safety / Interpretability

Rule: Do not change order. Do not batch-send.

REQUIRED ATTACHMENTS (ONLY THESE)

Attach or link exactly three items:

1. **One-Page Orientation — Alpha-Omega**
2. **Alpha-Omega: A Governance Lens** (locked canonical artifact)
3. **Statement of Intent**

Do NOT attach: - books or chapters - appendices - Reddit posts - stress-test transcripts - commentary or explanations

OUTREACH EMAIL (COPY VERBATIM)

Subject: Alpha-Omega: A Governance Lens (Observation, Not Prescription)

Hello,

I am reaching out to share a compact, independent governance lens I have developed, titled Alpha-Omega.

Alpha-Omega is not a proposal, policy framework, or alignment solution. It is a diagnostic lens intended to make visible recurring failure modes that arise when humans, institutions, or artificial systems mistake internal representations for external reality—particularly in contexts involving abstraction, compression, and authority.

I am not seeking funding, endorsement, or adoption. My interest is collaboration and scrutiny.

The material consists of: - a one-page orientation, - the locked Alpha–Omega lens itself, - and a brief statement of intent clarifying scope and boundaries.

The lens is read-only. I am not attempting to expand or defend it. I am interested in how it behaves when examined or stress-tested by people already working in governance, interpretability, or AI safety domains.

If this is not aligned with your work, no response is required. If it is, I am open to structured discussion or critique.

Best regards, Ammon Covino

EXECUTION RULES

- Do not personalize the email.
 - Do not add explanations.
 - Do not follow up before 7–10 days.
 - Do not send to the next org until the wait window expires or a response is received.
-

RESPONSE LOGGING

If a response arrives: - Copy it verbatim into a separate log. - Do not reply immediately. - Return to this thread and report: **"Anthropic response"**.

If no response after 7–10 days: - Proceed to the next org in the locked order.

STATUS

- Core lens: LOCKED
- Orientation: FINAL
- Statement of Intent: FINAL
- Email: FINAL

This canvas remains stable unless explicitly revised.
